To Whom it May Concern

We write to you in support of the proposal, prepared by Tim Kelly of Ride to Review, regarding lane filtering by Powered Two-Wheel vehicles on South Australian roads.

Having read through this extremely well researched document, we are prepared to fully endorse the recommendations within to provide increased safety for PTW road users. Additional benefits of these recommendations being legislated will be in the areas of traffic congestion and emissions reduction, as well as consistency of filtering legislation within Australia.

Regards,
